- Admin will be able to generate reports in a printable format for the following:
 - List of Customers.
 - List of Products.
 - Invoice Reports.
 - Sales Reports.
 - Inventory Reports.
 - Export the reports in other formats like excel, pdf etc.

5. Standardization

1. Design Standards.

- We make sure each of our services undergoes rigorous testing so that it becomes 100% free of bugs. We will use Junit method for testing part.
- The POS application can be run only windows 10 and 11.

2. Delivery Standards.

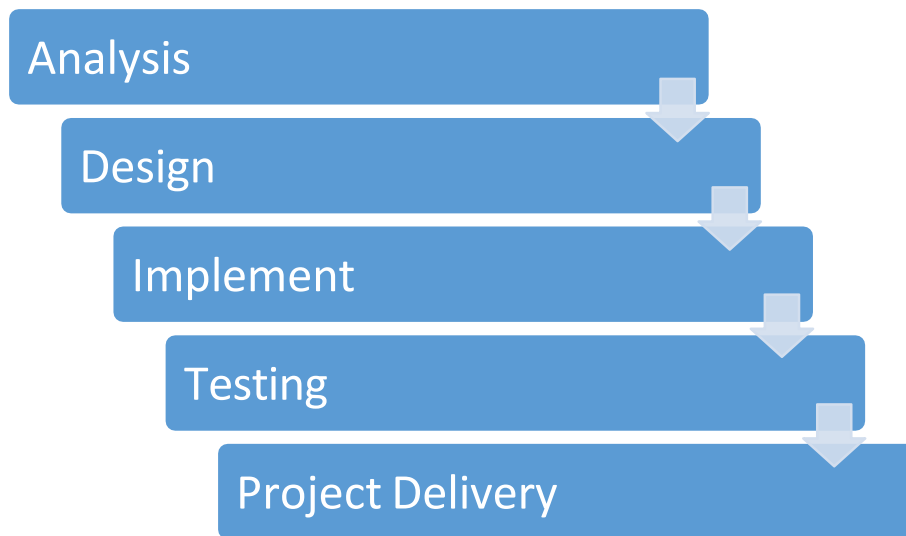

Teveram would promise to deliver the final project in the following ways:

- A document briefing all details of the files and Database structure will be released after the final payment.
- Deliver the complete source code, with the database
- All copyrights to the POS application will be held by Charitha.

6. Delivery Schedule

Working Days	Key Deliverable
1 – 2	Requirements Gathering.
3 – 2	Designing database
3 – 5	Designing UI
6 –13	Development of the process
14 – 18	Testing all units
19 – 20	Deployment of the system

7. Process Flow

8. Requirements from Client

To ensure the successful implementation of the POS system, Charitha requires the following requirements:

- UI Requirements: User friendly UI.
- Theme : Dark and universe.
- Requirements in employee role: Customer manage.
- Requirements in admin role: Customer manage, Employee manage, Product manage, Supplier manage.
- Current details and history of customers, employees and suppliers.
- Requirements of reports: Customers, Employees, Suppliers, Products, Invoice.

9. Teveram Commitment

Teveram's deliverable catering to website design and development and custom web applications development space are as follows:

- Fully functional site with the deliverables.
- The ETA of the project would be 40 days. Further changes in the deliverables may extend or reduce the ETA. (Estimated Time of Arrival)
- Teveram works on a strict schedule and promises to deliver as per the agreed time frame. However, we take a standard deviation of 10% due to force majeure.

10. Location of Work

The complete development process will be carried out of the development center of “Teveram” in Sri Lanka.

11. Progress Reporting and Communication

Weekly progress reports will be provided to Charitha to assess the status of the project. Communication will be managed through:

- Weekly update meetings.
- Email updates.

12. Engagement Model

Teveram has a comprehensive communications platform designed to maximize value and return on investment for our customers. Following is the engagement model of Kuweni The Store POS application.

- Software ship

Charitha will have access to the entire POS application developed. Copyright ownership only works when you have paid in full, and Teveram provides Charitha with a copyright release.

- Systems & Processes

Teveram has highly evolved systems and processes for project management, work-flow management, time sheet management, bug tracking, milestone tracking, project execution and reporting and Client communication.

- Warranty Period and Maintenance

Teveram shall give a warranty for all its code, provided a third party does not alter the same. Any changes or bugs shall be addressed free of cost until it does not involve adding new modules which will be billable. Warranty shall be valid only after clearance of full and final payment and receipt of feedback on the project for a period of 3 Months.

- Terms and Conditions

- i. All the deliverables listed in the proposal are only subject to consideration during the development of the project. There will not be any features entertained later those are out of scope for these tasks ETA and quote will be submitted separately for this.
- ii. All content, images, texts, videos and Third-party integration services information API, Plug-in etc. will be provided by the Client.

- iii. Teveram is not liable to write or publish the content on the project.
- iv. Teveram is not responsible for the delay of the project if the necessary information required by the Client like API's information, third party plug-ins, Product info, images etc. is not timely provided by the Client.
- v. Teveram will provide 3 design concepts for Design work and there will be 2-3 revisions that can be done as per Client's remarks if more revisions required then these will be billable.
- vi. Teveram is not responsible for the delay caused by the malfunctioning of any third-party software integrated with the project.
- vii. General features not described in detail will be carried out as per industry standards and will be supported by open-source scripts when available.

- **Payment Schedule**

Sl. No.	Percentage	Time
1	40%	With work order
2	15%	Before start testing
3	45%	After deployment

- Client will release the payment after the milestones have been completely tested on 'test servers'. Source Code We will transfer all the rights of the source code, artifacts and intellectual property to the owner once the website is completed.

- **Source Code**

We will transfer all the rights of the source code, artifacts and intellectual property to the owner once the website is completed.

We are looking forward to working with you.

Regards,

Director, Teveram.
