Hot Chop

Hot Chop is a vibrant and trendy restaurant known for its sizzling, flavorful dishes. Specializing in a fusion of Asian and Western cuisines, it offers a dynamic menu featuring fresh, locally-sourced ingredients. With a warm, contemporary ambiance and exceptional service, Hot Chop provides a delightful dining experience for food enthusiasts and casual diners alike.

Overall Description

Hot Chop is a dynamic and trendy restaurant celebrated for its unique fusion of Asian and Western cuisines. Located in a bustling part of the city, it boasts a contemporary, inviting atmosphere with chic decor that enhances the dining experience. The menu is a culinary adventure, offering a diverse range of sizzling, flavorful dishes crafted from fresh, locally-sourced ingredients. From savory stir-fries to gourmet burgers, Hot Chop caters to a variety of palates, ensuring there's something for everyone. The attentive and friendly staff are dedicated to providing exceptional service, making each visit memorable. Whether you're looking for a casual meal with friends or a special night out, Hot Chop is the perfect destination for delicious food and a great ambiance.

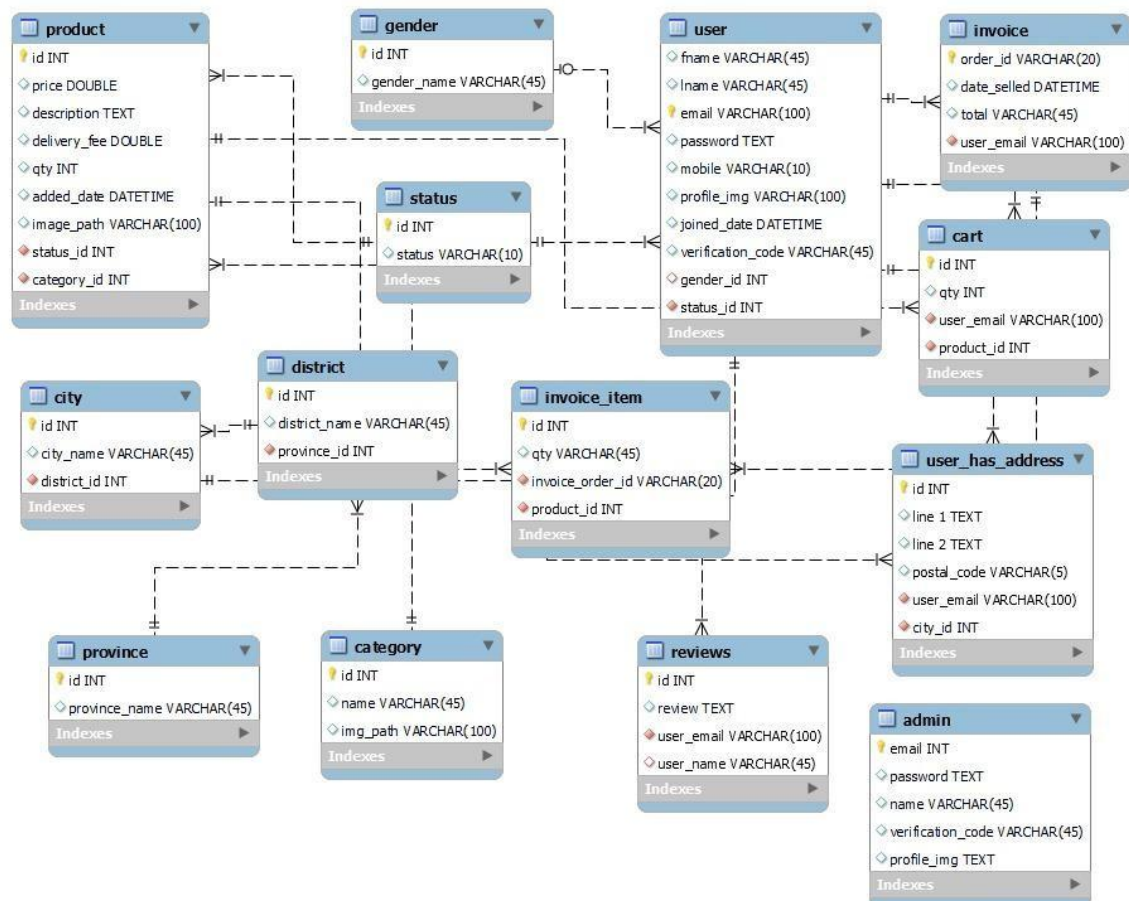

Admin Capacities

- Add products
- Manage products
- Manage users accounts
- Generate detailed reports on users, products, sales history and purchased history

User Capacities

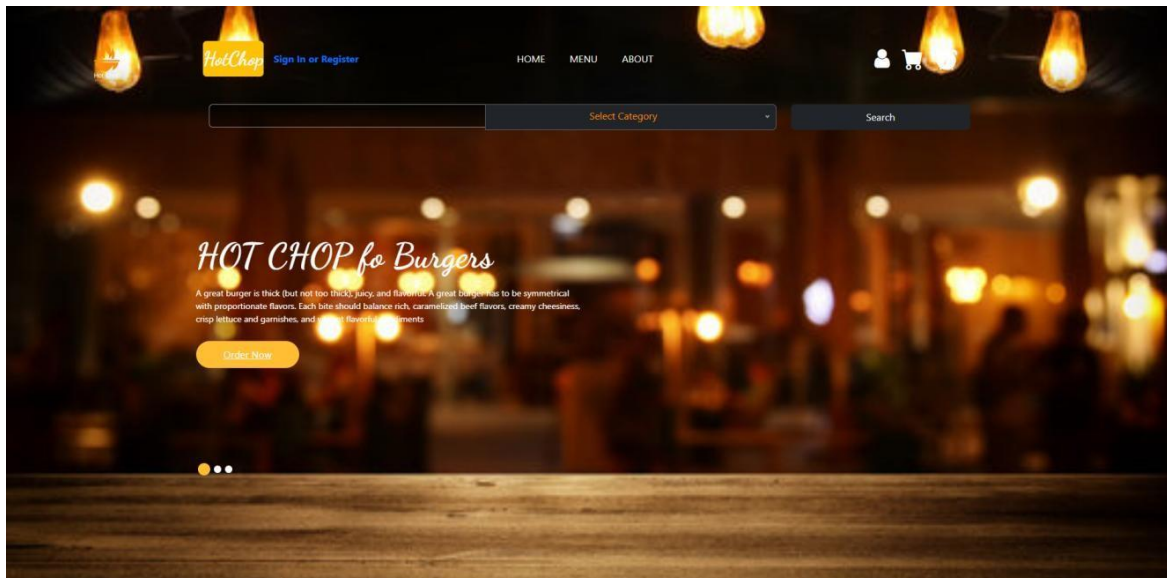

- Create user account and login
- Update user profile
- Search products and purchase product
- Add items to cart
- View and maintain purchased history
- Generate purchased history report

When the payment has done, user can view the invoice and print it.

Javascript function

```
function saveInvoice(orderId, id, mail, amount, qty)
{ var f = new FormData();
```

```

f.append("o", orderId);
f.append("i", id);
f.append("m", mail);
f.append("a", amount);
f.append("q", qty);

var r = new XMLHttpRequest();

r.onreadystatechange = function () {
    if (r.readyState == 4) {
        var t = r.responseText;
        if (t == "1") {
            window.location = "invoice.php?id=" + orderId;
        } else {
            alert(t);
        }
    }
};

r.open("POST", "saveInvoice.php", true);
r.send(f);
}

```

PHP

```
<?php
```

```

session_start();
require "connection.php";

if (isset($_SESSION["u"])) {

    $order_id = $_POST["o"];
    $pid = $_POST["i"];
    $mail = $_POST["m"];
    $amount = $_POST["a"];
